1.0 Introduction

1.1 Purposes of the Document

This is a detailed proposal for the "Power of Digital Marketing & Technology" seminar. It outlines the aims, events, audience, technicalities, and expected outcome of the seminar. The proposal is meant to offer a readable plan for conducting the seminar such that all aspects are well-organised to share valuable knowledge and skills with participants. In addition, it highlights the benefits to both visitors and organisers. It shows how the conference will enhance personal and professional growth in digital marketing.

1.2 Objectives

- To educate participants on the fundamentals and importance of digital marketing in modern business
- To inspire students and professionals to explore career opportunities in digital marketing
- To enhance teamwork, leadership, and event management skills amongst the organising committee
- To create a platform for networking and knowledge-sharing amongst participants and industry experts
- To provide practical knowledge into digital marketing strategies, SEO, social media, and e-commerce trends

1.3 List of Activities

Arrival of Audience and Registration

Participants will arrive at the seminar venue and proceed with registration. During this time, attendees will provide their personal details (such as name and matric number) to ensure smooth communication. This also allows participants to settle in, explore the venue, and begin informal networking.

Opening Speech from VIP

The seminar will begin with a welcome speech from a VIP guest. The speech will highlight the importance of digital marketing in the modern business landscape, the potential of technology in marketing strategies, and set the tone for a day of insightful learning and sharing.

Seminar Start and Introduction

The event moderator will introduce the seminar agenda and objectives. An overview of the day's activities, topics, and speakers will be shared to help participants understand what to expect, enhancing engagement and clarity throughout the seminar.

Keynote Talk: Power of Digital Marketing

Director Johnson Lai, a certified Google & Facebook trainer, will deliver a keynote talk focusing on the fundamentals and power of digital marketing. Topics will include the transformation of traditional marketing to digital platforms and how businesses can adapt to stay competitive.

- **Session 1: Strategies for Business Growth Through Digital Marketing**

This session explores effective digital marketing strategies that drive business growth. Attendees will gain insights into real-world applications, success stories, and step-by-step approaches to building an online presence.

- **Session 2: SEO and Social Media Marketing Insights**

This segment covers the latest trends in search engine optimization and social media marketing. Participants will learn techniques to improve website visibility and how to leverage social media platforms to reach their target audience.

- **Session 3: E-Commerce Trends and Online Advertising**

This session focuses on the latest e-commerce developments and how online advertising

(e.g., Google Ads, Facebook Ads) can help businesses reach wider audiences. Case studies and data-driven strategies will be shared to illustrate how brands optimize their online sales and ad performance.

Video Showcase: Real-World Digital Marketing Campaigns

In this session, participants will watch curated videos featuring successful digital marketing campaigns from well-known brands. The showcase will demonstrate how various strategies—including SEO, social media, and online advertising—were applied in real scenarios. This visual presentation aims to inspire creativity and provide practical ideas that attendees can apply in their own marketing efforts.

Q&A Session and Closing Remarks

Participants will have the opportunity to ask questions directly to the speaker, clarify key points, and engage in insightful discussions related to the seminar topics. This interactive session encourages knowledge sharing and deeper understanding of digital marketing strategies. Following the Q&A, the organizer will deliver closing remarks, summarizing the key takeaways of the day, expressing appreciation to the speaker and attendees, and encouraging continued exploration and application of digital marketing in future endeavors.

1.4 Targeted Audience and Expected Participants

Final-year and graduate students from Universiti Teknologi Malaysia (UTM), especially those in the Faculty of Computing, make up the main audience for the "Power of Digital Marketing & Technology" seminar. As they get ready to enter the workforce, these students are looking for real-world experience in how technology and digital marketing may improve business plans and entrepreneurial endeavors. Students pursuing specializations in software development, digital business, multimedia technology, and business analytics are specifically targeted by the seminar.

Through formal invitations and social media outreach, students from neighboring universities including Southern University College and Universiti Tun Hussein Onn Malaysia (UTHM) are also welcome to attend the seminar in addition to UTM students. Participants who are actively involved in student entrepreneurial programs or groups linked to marketing, both inside and outside of UTM, are also the focus of the event. We also welcome faculty members who are interested in digital transformation or who want to incorporate more up-to-date, industry-relevant information into their courses.

We anticipate between 80 and 100 participants, most of whom will be students between the ages of 20 and 26 who are actively planning their careers or getting ready for internships. Additionally, the event hopes to draw attendees from digital agency and startup groups who would find the speaker's ideas insightful, especially those seeking internship, recruiting or cooperation opportunities. The audience's variety will foster a vibrant environment for corporate and academic cross-learning.

1.5 Technical Aspects of the Programme

Kejora Hall, N28A, a well-equipped location on the UTM Johor Bahru campus, will host the seminar. With built-in projection systems, mounted screens, and an audio amplification equipment, the hall can accommodate up to 150 people. The technical crew will be in charge of setting up and overseeing the seminar's equipment, which includes a laptop linked to the projection system in the hall, two wireless microphones for the speaker and EMCEE, a backup Bluetooth speaker for audio support, and a secondary monitor for speaker notes. Additionally, the staff will make sure that the hall's lighting system is set up to provide visibility for both visual presentations and stage activities.

One day prior to the seminar, on June 25, 2025, a technical rehearsal will take place. All audio and video output equipment will be tested during this rehearsal to make sure the speaker's presentation which was created using Canva or PowerPoint is compatible with the projection system. A backup laptop and a USB drive with a copy of the presentation materials will be tested by the team. A mobile hotspot device will be ready to offer temporary internet access in the event of connectivity problems.

To prevent audio feedback or disruptions, the technical team will manage slide transitions and keep an eye on sound levels during the presentation. The speaker will have a wireless clicker to facilitate seamless slide transitions. Throughout the event, a dedicated technician will be stationed close to the control station to oversee any real-time adjustments. For documentation purposes, a camera will also be utilized to capture parts of the seminar, including the speaker's presentation and the Q&A period.

A brief post-event technical assessment will be held to assess any problems and suggest enhancements for subsequent events, and the technical team will oversee the safe disassembly and return of borrowed equipment when the seminar is over. The goal of all these technical efforts is to provide both speakers and participants with a smooth and expertly conducted seminar experience.

2.0 Guest Speaker Background

Founder of Optisage Technology Sdn. Bhd.

Meta Certified Lead Trainer | Digital Marketing Expert

Mr. Johnson Lai is the founder of Optisage Technology Sdn. Bhd., a digital marketing consultancy located in Johor Bahru, Malaysia. His passion lies in making digital skills accessible to all, and he remains committed to supporting Malaysia's journey in the digital economy.

3.0 Impact of the Programme

3.1 Impact to the Organizer

This seminar is expected to bring valuable benefits to the organizing team. There are several impacts for the organizer, including enhance knowledge of digital marketing and technology, improve teamworking skills, and hands-on experience in event planning and coordination.

First of all, this seminar provides a valuable opportunity to the organizer to improve their understanding of digital marketing trend, tools, and strategies. The organizing team can gain practical knowledge in both academic and professional setting during the process to prepare the content, research the company background and also today's digital trend.

Moreover, organizing this seminar can improve the teamworking skills, especially leadership and communication skill. Engaging with the external parties like the guest speakers, university departments, and participants allows the team to enhance their communication, and teamwork. These skills are crucial in any work environment and will help organizers perform confidently in future roles.

Additionally, the experience of planning and organizing a seminar could build competence in event management for all team members. This is because all members involve themselves from developing promotional materials to managing the flow of the event. These organizational skills will help the team well in future academic projects and career responsibilities.

In conclusion, this program provides meaningful exposure to digital marketing concepts, essential soft skills, and practical event management experience to the organizer's members. These benefits contribute to their personal and professional growth in today's digitally driven world.

3.2 Impact to the Participants

The seminar is organized to equip the participants with relevant knowledge on how digital tools are reshaping the modern world. With the rapid developed of online platforms, both businesses and individuals must adapt to it to keep competitive. This seminar provides a valuable opportunity for participants to explore current digital trends, strategies, and real-life applications in the field of digital marketing.

Through this seminar, the participants will gain a clear understanding of the potential of digital marketing in nowadays business trend. The seminar aims to show how digital marketing play an essential role for branding, and growth for all businesses and individuals. By highlighting its accessibility, the seminar encourages participants to see how digital marketing can be applied in various settings and industries.

In addition, this seminar will introduce various career and business opportunities in digital marketing to the participants. By showing real-world examples and success stories, the participants will learn about the role such as content creator, social media marketer, and online business owner. This can help the participants to explore different career paths and this could inspire them to learn more about the digital marketing field.

In conclusion, this seminar helps participants to acknowledge useful knowledge and skills in digital marketing. It gives them the confidence to use digital tools and understand how technology affects communication and business. With this foundation, they will be better prepared for future studies, careers, and opportunities in the digital world.

7.0 Conclusion

In conclusion, this proposal outlines all essential aspects of our seminar, including its purpose, objectives, target audience, speaker profile, anticipated impact, and the program schedule. The seminar, titled “Power of Digital Marketing & Technology,” is designed to provide participants with a practical understanding of how digital tools are transforming today’s business landscape. To support this goal, we have invited Mr. Johnson Lai, a certified digital marketing expert and founder of Optisage Technology Sdn. Bhd., to share real-world insights and strategies. Our primary target audience consists of students from Universiti Technology Malaysia (UTM), particularly from the Faculty of Computing. The seminar will be held on Thursday, 26th June 2025, at Kejora Hall in N28A, UTM Johor Bahru, and is expected to benefit both participants and organizers. Participants will gain valuable knowledge in digital marketing trends and career pathways, while the organizing committee will strengthen their teamwork, event coordination, and leadership skills. Overall, this seminar is not only an academic endeavour but also a platform for personal and professional growth. We are thankful for this opportunity to organize such an impactful event and to develop skills that extend beyond the classroom.
